Medical Materials & Devices

Biomaterials have become quintessential in today's world with biomedical engineering providing the patient specific solutions and enhancing the longevity and quality of life. Apart from material selection and design detailed micro structural/phase characterization and assessing the performance of biomaterials for rendering specific use enhancing functionality and tailoring the damage tolerance become important. In addition the translational aspects from bench to bedside with focus on devices and practices also hold a very special place. Thus paradigm of new material design, role of processing biomaterials, surface modification, mechanisms of tailoring mechanical/tribological properties, attuned cytological compatibility & biological activity to achieve appropriate host response. Device manufacturing/integration and apt surgical practices are the focus of this thematic topic of Medical Materials & Devices (MMD)

MEDICAL MATERIALS & DEVICES (MMD 2024)

Major Areas for conference

Medical implants - Metals and alloys (stainless steels, Cobalt base, Titanium base, Tantalum), Shape memory alloys, Noble materials & alloys, Ceramics, Polymers and Composites, Natural biomaterials, Medical adhesives, Coatings on implants.

Applications - Orthopedic, Dental, Hearing devices, Eye specialties, Cardiovascular, Tissue engineering, Scaffolds, Drug delivery systems, Surgical tools and equipment.

Material characterization & Development - surfaces and interface, corrosion, cell implant interactions, Evaluation of implants, biochronology & implant wear,

Manufacturing Techniques, Fabrication methods, Coatings and thin films, Additive manufacturing, Artificial Intelligence and Machine learning.

Biocompatibility of devices ISO 10993

Quality system certification ISO 13485

Risk Management ISO 14971

Regulatory norms CDSCO, FDA, Accreditation as per ISO 17025

PATRON

1. Dr. Jitendra Sharma, Founder MD & CEO, AMTZ Vizag
2. Dr. Abhay Karandikar, Member, NITI Aayog, GOI
3. Prof. Kamachi Mudali, Vice Chancellor, Homi Bhabha National Institute
4. Dr. Shailesh Raina, Director, Urology & Renal Transplantation Jaslok Hospital, Mumbai
5. Shri Gautam Khanna, CEO Hinduja Hospital, Mumbai
6. Prof. Ravi Ravindran, Toronto Metropolitan University, Canada
7. Dr. Navin Manjooran, Past President, ASM International, USA
8. Dr. T. Sudarshan, Vice President, ASM International, USA
9. Dr. Roger Narayan, University Of North Carolina, USA
10. Dr. Samir Somaiya, Chairman, K. J. Somaiya Medical Trust, Mumbai
11. Dr. Ashok K. Srivastava, Vice Chancellor, Amity University Jharkhand

Advisory Committee

1. Shri Rahul Gupta, Trustee, ASM International, USA
2. Shri B. R. Galgali, Chair, ASM India National Council
3. Dr. Ashok Kumar Tiwari, Past Chair, ASM India National Council
4. Dr. R.N Singh, Chair, IIM Mumbai Chapter
5. Dr. Supratik Roychoudhury, Secretary, IIM Mumbai Chapter
6. Prof. Parag Bhargava, BETIC, IIT Bombay
7. Shri Somnath Basu, Ex Deputy Drugs Controller, CDSCO, New Delhi

Panel discussions on appropriate topics will be held during the conference.

Souvenir with abstracts of conference papers, messages, useful technical literature and advertisements will be published during conference.
